EASY ON/OFF
Pivoting Attachment

PRODUCT DESCRIPTION

ESS Influx Pivot™ kits provide a simple and adjustable solution for attaching ESS Influx™ Series goggles to any Ops Core® helmets equipped with the Ops Core® ARC™ Rail System. When seconds count, users will benefit from the advancements offered by the Influx Pivot™ goggle mount: easy donning and doffing, multiple secure stowage options, and rapid strap adjustment.

The Influx Pivot™ replaces the Influx's full elastic strap with two pivoting adjustable side-straps. The Influx Pivot system is engineered to be rapidly-affixed in the field while wearing helmet and gloves. Once mounted to its helmet-posts, the secured Influx Pivot goggle can be repositioned or removed as needed.

FRAME & LENS OPTIONS

Frame Color	Lens Tint	VLT*
