PRODUCT DESCRIPTION

By virtually eliminating lens fogging. The ESS Influx™ goggle allows users to maintain full situational awareness in dynamic environments. As part of the goggle's patented Adjustable Ventilation System™ (AVS™), the Influx RotoClip™ silently pivots the position of the lens inside the goggle frame: choose either a dust-free, fully-sealed mode, or a fog-free, open-ventilation mode. With Influx™ users can always see clearly and act fast when seconds count.

Additional Key Features: Fleece lined, moisture wicking, face foam for ideal comfort, warmth, and performance, Advanced ESS ClearZone™ FlowCoat coating eliminate fog inside & prevent scratches outside, Interchangeable distortion-free 3.0mm high-impact Polycarbonate lenses, 100% UVA/UVB protection
